The machine includes a two cup filter, steam nozzle, drip tray, pilot lamp and illuminated lights and switches. Sold online and in select culinary supply stores, appliance stores and department stores, the appliance lets you brew your own specialty coffee drinks. While the operating instructions are generally straightforward, children should never be allowed to use or play with the appliance to reduce the possible risk of injury. The DeLonghi espresso maker lets you brew your own specialty coffee drinks at home. Fill the filter with one or two teaspoons of ground espresso in the filter, depending upon the desired amount. Press down lightly on the coffee to tamper. Close the filter holder, pushing it to the right as far as possible. Set the cup or cups on the drip tray. Fill the water reservoir with the desired amount of cold water. Wait for the coffee to brew into the cups. Wait until the coffee maker has cooled before removing the filter to discard the used coffee grounds. Wait three minutes, then slide the steam nozzle into the milk pitcher until submerged. Turn the steam control knob counterclockwise and raise and lower the milk to froth. Turn the steam knob off when finished and remove the pitcher. <http://dreamnightwear.com/userfiles/instruction-manual-for-babystart-car-seat.xml>
