Click here for more information on the types of cookies we use and how to change your cookie settings. If an update is available, the app will prompt you to update. Download the free SoundTouch app here Music services may vary. If an update is available, it will begin downloading automatically. If an update is downloaded fully, text on the screen will prompt you that it is ready to be installed when powering down the console. Your system will shut down automatically after installation. If an update is available, the update will automatically be downloaded to the console. Once the update has fully downloaded, an onscreen message will appear stating "An update is ready to be installed. Install now" when the system is turned off.

Make sure the bass module and wireless surround receivers are connected wirelessly to the console in order to receive any updates available for these components. To begin the installation, select INSTALL. When installation has completed, the system will turn off. Using the remote, press SETUP then select "Software Update" to determine whether a software update has been downloaded to the console. The onscreen instruction will inform you if any automatic updates are ready for installation. If the bass module was connected to the console using a 3.5mm cable during the system update, the

bass module will not be updated. When the update occurs, the remote will not be usable for about 1 minute. Bose s thirdgeneration SoundTouch wireless speaker system now supports Bluetooth pairing as well as WiFi. Bose Corporation hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive The Bluetooth.Reload to refresh your session. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Bose 321 System Manual. To get started finding Bose 321 System Manual, you are right to find our website which has a comprehensive collection of manuals listed. Our library is the biggest of these that have literally hundreds of thousands of different products represented. I get my most wanted eBook Many thanks If there is a survey it only takes 5 minutes, try any survey which works for you. When talking about Bose products If this message appears, try the followingThe Mountain Lion version of OS X 10.

8 includes a feature called Gatekeeper to protect users from installing applications of nonApple identified developers. The Mavericks version of OS X 10.9.5 temporarily cannot identify Bose as a developer as well.Launchpad doesn't allow you to access the shortcut menu Select OpenNavigate to the Bose Updater. The update requires a USB cable.The customer had to temporarily disable Avast Antivirus Software to allow the software to run. If you have WiFi at home, you're ready to enjoy your favorite music in any room you want. Refer to the quick start guide in the carton for contact information. The app guides you through connecting the system to your network see page 11. The app guides you through setup. You can do this by manually putting the system in to setup mode. Lights under the indicators glow according to system state see page 13. See page 19 for more information. Auxiliary source The auxiliary source lets you play music from an audio device connected to your system's AUX connector. You need a stereo cable with a 3.5 mm stereo cable plug not provided. If you have not set your Presets, launch the app and set your Presets. For help, refer to the inapp help. If using the remote control, aim the remote toward the system while pressing a Preset on the remote. A gear icon Setting often represents Settings on the Home screen. If you cannot pair your device You may need to clear the system's Bluetooth pairing list see page 21. After you clear the list, try pairing again see page 19. Note If there are multiple devices stored in the system's pairing list, it may take a minute or two for the paired device to connect. Your system's Bluetooth indicator indicates connection status. See "Understanding the system status indicators" on page 12. Using the button 1. On the system's button pad or remote control, press and release until the Bluetooth indicator blinks blue. The system connects to the last device that streamed to your system. 2.

Once connected, on the Bluetooth enabled device, play music to stream to your system. Tip If a paired device is connected, you do not need to press. The system's Bluetooth indicator glows white when connected. If the paired device is out of range of your system, move the device within range. You may need to clear the pairing list if you cannot connect to a device. Once you clear the list, you need to pair previouslypaired devices again. The AUX connector accepts a 3.5 mm stereo cable plug not provided. 1. Using a stereo cable, connect your audio device to the AUX connector on the system. However, you can also update system software using the button pad. 1. Press to power the system on. 2. On the button pad, press and hold 4 and about 5 seconds. The WiFi indicator glows when WiFi is enabled. Resetting the system Factory reset clears all source, volume, and network settings from the system and returns it to original factory settings. 1. Press to power the system on. 2. On the button pad, press and hold 1 and about 10 seconds. Post in the comments.Also the the device is not recognized by the phone Trying to troubleshoot but nothing is happening. And by having access to our ebooks online or by storing it on your computer, you have convenient answers

with Bose Lifestyle V30 Manual Download. To get started finding Bose Lifestyle V30 Manual Download, you are right to find our website which has a comprehensive collection of manuals listed. Our library is the biggest of these that have literally hundreds of thousands of different products represented. I get my most wanted eBook Many thanks If there is a survey it only takes 5 minutes, try any survey which works for you. Click here for more information on the types of cookies we use and how to change your cookie settings. All details and instructions are featured below. For more information, see our FAQs Once downloaded, the application will prompt you to connect your speaker to your computer with a micro USB cable.

It will appear on your desktop as a hard drive icon Drag the updater file to the desktop as indicated. If the window doesnt open, doubleclick the icon. When the application has finished and closed, it will remove all temporary working files, leaving behind the driver and the downloaded application file Windows machines only. The application file can be deleted from your computer after the update is complete, but we recommend leaving the driver installed on your computer to make future upgrades easier.
