Our library is the biggest of these that have literally hundreds of thousands of different products represented.

## Book Descriptions:

# bounty hunter quick draw 2 manual

The Quick Draw II is a motion detector; movement over an object is required in order for the machine to detect the object and emit a tone. Alternatively, you can sweep a metal object over a motionless search coil. Before using your Quick Draw II, it is important to read these instructions. This manual's description of detection concepts and types of metals is. Knob Just follow these steps Using the supplied bolt and knurled knob, attach the search coil to the lower stem. Press the button on the upper end of the lower stem and slide the lower stem into the upper stem. It should flash momentarily when the Power Switch is turned on. IMPORTANT Your Quick Draw II metal detector requires two 9Volt ALKALINE batteries. Follow these steps to install the batteries. Carefully. While the Quick Draw II Tab.If the indicator The Depth Indicator is accurate for comes on and stays on, replace the coinsized objects. It indicates the batteries.Common sources of SENSITIVITY knob in the 100% EMI are power lines, both suspended clockwise. Refer to the illustration below as a reference for the levels required to discriminate out different objects. Most will tones which classify metal objects into induce a medium tone. Most will be categories. It inch above the ground as you search. Dig only the repeatable low and high tones, avoid the broken or nonrepeatable tones. OTHER APPLICATIONS Use your Quick Draw II to find property markers, machine parts, and lost keys. Keep your detector in ALLMETAL mode for these tasks. Gold prospecting also requires the ALLMETAL mode. The following suggestions will help you care for your metal detector so you can enjoy it for years to come. Handle the metal detector carefully. Dropping it can damage circuit boards and cases. Lightweight and adjustable with Audio signal indicator The Quick Draw The characteristics are The most popular metal detecting application.<http://28jaya.com/userfiles/delonghi-pac-c110-owners-manual.xml>

Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. C. J. Myers 5.0 out of 5 stars I had to read the manual and it took some use to get the hang of the different settings.

It allows you to bypass junk and only dig up wanted items. I have found some jewelry and many coins no old ones with it. I am by no means a serious metal detector person, but this is perfect for the casual user. Still trying to figure out today! Its easy to use and gives you a lot of information about what it detects. Its a good entry level detector. The box arrived open at one end so I had no idea if something was missing. Thankfully it was all there. Item kind of cheap looking for the money. I hope it works! Got it out on the beach, he found a quarter. LOL Found a lost wedding ring in the sand and a few other goodies. Bounty Hunter puts a lot of bang for the buck in their detectors. All inizio volevo fare il reso perche pensavo funzionasse male invece dopo aver perso molto tempo a settarlo mi sono ricreduto. Non ha un manuale in italiano e neanche si trova quindi richiede conoscenza dell inglese. Sorry, we failed to record your vote. Please try again Vendor was good to deal with. Easy to use. Keep the instructions handy. Sorry, we failed to record your vote. Please try again. Includes LCD display with depth readout, 3 tone audio discrimination and 9 segment visual target identification. Made in USA. Whether sweeping the search coil ultra fast or ultra slow, the Quick Draw II will detect targets with tremendous accuracy. Download Owners Manual here. FEATURES I am convinced Quick Draw II is THE best value available of any make by any company. The features on the QDII are generally found only on much higher priced detectors. This thing really works as advertised. I have already found several coins and other things right in my own yard. It will reliably indicate what coin is being detected although it many times confuses dimes and pennies on the LCD readout. It is very sensitive and detects most coin size items very reliably to about 6 or 8 inches. The auto notch discrimination works well and filters out most trash items.

I have used metal detectors that ended up being aggravating and frustrating. This one is a pleasure to use and is quickly becoming a relaxing and profitable pastime for me. If you want a serious metal detector without spending a whole lot of money give it a try. After learning how to use it I went outside and low and behold I found a quarter, a dime, a nickle, and 2 pennies one was a 1950. I bought this to basically find my property stakes which are buried about 4 inches under ground. I had to read the manual and it took some use to get the hang of the different settings. Choose between Auto Notch and Variable Notch modes or select the 3 level iron discrimination during relic hunting. The digital coin depth indicator of this Bounty Hunter metal detector lets you know how deep you need to dig in order to reach the target. The ergonomically designed S Rod handle system of the treasure hunter metal detector provides comfortable hand grip. FEATURES Please, use only the batteries that are recommended. Offer Expires in Industry Reviews Whites Electronics is looking forward to working with Michael, Daniel and the MetalDetector.com team. Their experience in the metal detecting industry is unmatched. I have enjoyed working with Michael, Daniel and their team at Detector Electroics Corp. They have done a fine job representing the Detector Pro line since it was first introduced in 1996. One of the things I see them do is go the extra mile for their customers. It is always nice to see a family run business endure and we wish them many years of continued success. We appreciate the partnership from

Michael and Daniel at MetalDetector.com. As a family owned business, we choose our partners carefully. We have found that their team has done a fine job of representing our line. With thirty years of success under their belt, we expect that they will be a partner for many years to come. We at Treasure Products, manufacturer of the VibraProbe and VibraTector, want to congratulate Daniel and Michael on the admirable milestone of being in business for over three decades. The dedication and product knowledge that your staff exhibits has been a great benefit to us. We offer our best wishes for your continued success. I have found that the team at MetalDetector.com has done a fine job representing the entire JW Fishers line.

They have partnered with us in helping to bring our products to both individuals, larger corporate and governmental organizations. Michael and Daniel have established a knowledgeable team that has done the job of getting the correct product in to the hands of each consumer. I wish them continued success as they represent our products in the years to come. I have been impressed by the professional approach and the experience of Daniel, Michael and the entire team at Detector Electronics Corp. Three decades of superior customer care has been the key to their success and large sales volume. We have enjoyed working with Michael, Daniel and their esteemed team at Detector Electronics Corp. We feel that they have been the best choice for representing the good reputation of the Makro Detectors in the region. They have been working towards 100% customer satisfaction ever since they started their cooperation with us as our exclusive Distributor in the USA and Canada. We are pleased to see both their business and the sales in their region continue to grow. It is nice to see both our family business and theirs growing together. We see our companies moving forward together for many years to come. Garrett has a longstanding quality relationship with Detector Electronics Corp since the 1980s. I have seen them grow from a regional dealer to one of the largest internet dealers yet they have maintained that special care for the customer for over three decades. Their team of knowledgeable, helpful and friendly staff and family make their dealership a first choice for the treasure hunter. MetalDetector.com has been a valuable business partner to Fisher Research Labs for many years. They continue to grow while still offering the best in customer service and after sale support, which is very important to FRL. We wish to congratulate them on 3 decades of business and stellar service to our mutual customers.

Their entire staffs knowledge of our product helps to ensure the customer gets the right detector for their needs regardless of what they might be. We look forward to our future relationship and continued success of MetalDetector.com and their entire staff. I recently had the pleasure of meeting with the team at MetalDetector.com at their newly expanded facility in Southborough, MA. I have to say that I was impressed with their operation and knowledge of the Teknetics product line. When the Teknetics product line was recently relaunched, MetalDetector.com was one of the first partners we contacted. They have had a long standing relationship with the brand as one of the original Teknetics dealers in the country. We value long standing relationships and are excited to have them as a member of our team. Its been an honor and privilege working with the fine folks at Detector Electronics for over 25 years. Its no surprise that Sondra and Davids fine sons, Michael and Daniel have continued in their parents tradition of being exemplary businesspeople who take the time and care enough to really know their clientele. Its always been a pleasure working with you. DRS Electronics, GmbH is proud to have Detector Electronics Corp. I have known Michael and Daniel for over a decade. Their team is genuine and knowledgeable. They provide exceptional support and service to our customers. They are a recognized leader in the industry. Internationally their business is known for excellent customer support. Their presence is a great confidence for treasure hunters. MetalDetector.com has been a great business partner for many years and the best choice for representing Makro Detectors in the USA. With the addition of Nokta products to their product portfolio in 2018, we are confident that our businesses will continue to grow together for many years to come.

Gary Micheau CEO Whites Electronics Gary Storm Owner Detectorpro Ingrid Hawk Partner Lesche Products Michael Bernstein Owner Treasure Products, Inc. By the end I felt I was dealing with a friend rather than a faceless company on the net. Well done! And, by the way, my 7 year old son Juanito found a nickel yesterday when he took his detector out for the first time. If things keep going this way the detector will have paid for itself within a few short decades. But seriously, he is really enjoying it and hoping to find his longdreamedof buried treasure some day. Happy to do business with you, Hello Dan, Remember me. I bought my Tesoro Tiger Shark from you. It came just when you said it would, and works just as you told me it would. Thanks for your help in sorting through the maze of detectors. Dear Sondra, 1160 GRAM Meteorite. Dont ask where. One of many! As far as being excited I all most had a stroke. Heres a photo of one Meteorite I found on the surface, over 800 grams and a 447 gram one. The one in the middle is my first. The bar magnet has some small Iron meteorites on it. Dear Detector Electronics, I received the Tesoro Sand Shark today.and want to thank you. Tried it, love it, looking forward to many enjoyable hours with it. Thanks again. Dear Customer Service, Just wanted to thank all involved in a recent shipment to me that was a gift for my grandkids. I ordered 2 detectors but for some reason only one was shipped. After calling your company you bent over backwards to get the second detector to me on time for giving to my grandchildren. I explained that we exchange gifts a week early so my children and their families can be in their homes Christmas morning since some travel distances are involved. The second detector arrived last Friday in time for our celebration last Saturday. THANKYOU. I order quite a few things online and have experienced some terrible companies but you are the best.
