It is difficult for him to get up out of a chair, and this lift chair is the perfect aid for him.

It is a great looking chair, good size, and the remote is easy to use. My father finds this chair very comfortable, especially since it can be put in so many different positions. It also fits in with any decor we were really satisfied with this purchase! Thank you, I purchased it for a friend that had extensive surgery for their athome recovery. A great feature is the battery backup. If you lose power while sleeping, you are still able to get the chair to a standing position on two 9volt batteries however, both batteries require replacing following each use of this feature. Not sure if you're able to see in my attached pictures, but I placed the chair as close to the corner walls as I could where it would be able to lay flat without interference. Also, keep in mind that this chair does need to be plugged into an outlet. The extended leg rest fits my 6 ft height perfectly. Love the lumbar support when my back is feeling out of sorts. The adjustable headrest is very good for my neck. I just wish it came in a fabric instead of the vinyl but I can get a fabric insert. My neighbor tried it out and he's thinking about getting one. Overall a great chair! It does all the functions it was purchased for. The chair is very sturdy and well constructed. The various positions allow you to rest comfortably at all times. The lumbar support effectively eliminates the stress caused by sitting for long periods of time. I am very happy with the chair and would recommend it for anyone that needs a lift recliner. Very comfortable. Adjustment in steps rather than continuous. A bit smaller than I expected, but we're not that big, anyway. I love the lumbar adjustment. I am loving it. I do wish it came in colors. Bought a lift table that ead 1 inch shy of fitting Otherwise very nice chair. Love the store setup and everyone was super friendly. It is both attractive and functional. I would definitely recommend it. Has a very nice look!! Great Experience! The remote works so smoothly.

I am very happy that I chose this chair to go along side my husbands chair in our TV room. The only one thing is am not able to fix the side bars yet. Would recommend this to buy. The best Mother's Day gift my mom ever received. Thank you so much very well appreciate. Comfortable, many functions, great lumbar support. All around a great chair. It was for my husband but I set in it as much as I can. Will get one for me soon I hope Delivery and set up were quick and thorough. Especially love the headrest and lumbar controls. Using the remote is better than having the side buttons as on other recliners. So far it is working fine. It is very comfortable and is exactly what we

needed. Wish they had picked up the old chair Reviews and testimonials from others can be an important factor in making a decision to purchase from us. Customers are eligible to receive an offer if they provide a review of a product purchased from us. Learn More The manual also states that the batteries need to be replaced after one use. But, they are supposed to provide enough power to get the chair from a fully flat position up to the standing position. The manual also states that the batteries need to be replaced after one use.
